**NEW JERSEY WATER SUPPLY AUTHORITY  
(A COMPONENT UNIT OF THE STATE OF NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS

---

**A. ORGANIZATION AND OPERATIONS**

The New Jersey Water Supply Authority (the "Authority"), a component unit of the State of New Jersey (the "State"), consisting of the Spruce Run/Round Valley Reservoirs Complex, the Delaware and Raritan Canal Transmission Complex (the "Raritan Basin System") and the Manasquan Reservoir Water Supply System (the "Manasquan System"), is a public body, corporate and politic, constituted as an instrumentality of the State, exercising public and essential governmental functions. The Authority was created by the New Jersey Water Supply Authority Act (the "Act") on October 7, 1981, and in connection with the Act, all water supply facilities owned or operated by the State (*i.e.*, *Raritan Basin System*) were transferred or leased to the Authority. The Act empowers the Authority to acquire, finance, construct and operate water systems and issue bonds. Members of the Authority consist of the Commissioner of the New Jersey Department of Environmental Protection ("NJDEP"), ex officio member and six public members appointed by the Governor upon the advice and the consent of the New Jersey Senate. The public members represent the agricultural community, industrial water users, residential water users, private watershed associations, public finance and water resource management and distribution. The Authority prepares an annual budget that is used to establish rates and as a management tool, but the budget does not constitute a legal budget or establish spending limitations.

The Authority does not have component units that should be included within its financial statements.

**B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Accounting**

The Authority is a component unit of the State of New Jersey and is included in their general purpose financial statements.

The accompanying basic financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board ("GASB").

In its accounting and financial reporting, the Authority follows the pronouncements of the GASB and other entities that promulgate accounting principals. GASB Statement 76, *The Hierarchy of Generally Accepted Accounting Principals for the State and Local Governments*, establishes the order of priority of pronouncements and other sources of accounting and financial reporting guidance that a governmental entity should apply. Per the Statement, the sources of authoritative generally accepted accounting principals ("GAAP") are categorized in descending order of authority as follows: GASB Statements and Interpretations, GASB Technical Bulletins, GASB Implementation Guides, and literature of the American Institute of Certified Public Accountants ("AICPA") cleared by the GASB. Authoritative GAAP is incorporated periodically into the Codification of Governmental Accounting and Financial Reporting Standards (Codification), and when presented in the Codification, it retains its authoritative status. If the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP described above, a governmental entity should first consider accounting principals for similar transactions or other events within a source of authoritative GAAP described above and then may consider nonauthoritative accounting literature from other sources. These include GASB Concepts Statements; pronouncements and other Statements, pronouncements and other literature of the Financial Accounting Standards Board ("FASB"), Federal Accounting Standards Advisory Board, International Public Sector Accounting Standards Board, and International Accounting Standards Board, and AICPA literature not cleared by the GASB; practices that are widely recognized and prevalent in state and local government; literature of other professional associations or regulatory agencies; and accounting textbooks, handbooks, and articles.

The Authority derives most of its revenue from water user charges and is considered to be an enterprise fund; accordingly, the Authority presents its financial statements on the accrual basis of accounting. In addition, the Authority has established certain restricted "funds or accounts" as directed by internal resolution and bond indentures.

**NEW JERSEY WATER SUPPLY AUTHORITY  
(A COMPONENT UNIT OF THE STATE OF NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS

---

**B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Revenues**

Charges for wholesale water usage are established to provide revenues sufficient for services, essential repairs and improvements to the utility plant, and repayment of debt service on certain long-term obligations used for plant construction. Sales are recognized as revenue when water is made available to customers, and the customers are billed in the following month or quarter.

The Authority distinguishes operating revenues and expenses from non-operating items. Operating revenue and expenses result from the sale of water to customers. Operating expenses include costs of providing water, administrative expenses and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as non-operating revenue and expenses.

**Capital Assets**

Capital assets are stated at original cost and consist primarily of amounts expended to license, construct, acquire, complete and place into operation the projects of the Authority. Capital assets are defined by the Authority as assets with an initial, individual cost of more than \$1,000, and an estimated useful life in excess of three years. Such expenditures include labor, materials, services and indirect costs. Normal maintenance and repair costs are charged to operations and maintenance expense. Improvements and replacements are capitalized. Interest earned on long-term debt proceeds used for capital asset construction and temporarily invested during the construction period is netted against interest cost. The excess, if any, is capitalized to construction work in progress, and the portion related to completed projects is expensed. The cost of capital assets retired, net of any gain or loss on the disposal of such capital assets, is offset to accumulated depreciation. The Authority also holds several restricted easements for utility access, conservation and water rights. These easements are recorded at the lower of cost or fair market value upon acquisition.

**Depreciation**

Capital assets are depreciated on the straight-line basis over the estimated useful lives of the various classes of plant, as follows:

Dams	100 years
Buildings, structures and improvements	15-40 years
D&R canal dredging	20 years
Machinery & equipment	3-10 years

**Cash and Cash Equivalents**

For purposes of the statements of cash flows, the Authority considers short-term investments that have original maturities of ninety days or less to be cash equivalents.

**Investments**

Short-term investments and restricted investments used for construction and payment of interest consist of money market funds and U.S. government-backed securities with various interest rates. Restricted investments are restricted under the terms of the Authority's bond indentures for the payment of debt service. All investments are carried at fair value, in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools* and GASB Statement No. 72, *Fair Value Measurement and Application*.

**NEW JERSEY WATER SUPPLY AUTHORITY  
(A COMPONENT UNIT OF THE STATE OF NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS

---

**B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Accounts Receivable**

The Authority considers most of its accounts receivable to be collectible; accordingly, the change in net position is charged with an allowance for estimated uncollectible accounts based on past experience and an analysis of current accounts receivable collectability. Accounts deemed uncollectible are charged to the allowance in the year they are deemed uncollectible.

During fiscal year 2021, three customers accounted for approximately 90% of the total Raritan Basin System accounts receivable and three customers accounted for approximately 85% of total Manasquan System accounts receivable. During fiscal year 2020, three customers accounted for approximately 90% of total Raritan Basin System accounts receivable and two customers accounted for approximately 85% of total Manasquan System accounts receivable.

**Compensated Absences**

All full-time employees accumulate vacation benefits in varying annual amounts up to a maximum allowable accumulation of two years' benefit. Unused sick leave benefits are earned by all full-time employees at a rate of 15 days per year and may be accumulated without limit. In the event of termination, an employee is reimbursed for all accumulated vacation days. Unused sick leave benefits do not vest but are payable only upon retirement up to a maximum of \$15,000. A liability is accrued in the financial statements when incurred.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Income Taxes**

The Authority is exempt from federal income taxes under the Internal Revenue Code, Section 115, and from state income taxes under N.J.S.A. 27:25-16, and accordingly, no provision is recorded for federal and state income taxes.

**Net Position**

Net position represents the difference between assets and liabilities and is classified into three categories:

- ◆ *Net Investment in Capital Assets* - This represents capital assets, net of accumulated depreciation, less the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition construction or improvement of those assets.
- ◆ *Restricted for cash, investments, and unearned revenue* - This represents the net position that is not accessible for general use because its use is subject to restrictions enforceable by third parties. When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first and then unrestricted resources, as they are needed.
- ◆ *Unrestricted Net Position* - This represents net position that is available for general use.

**Deferred Inflows and Outflows of Resources**

In addition to assets and liabilities, the statements of net position report separate sections of deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period which will not be recognized as an outflow of resources until that time. Deferred inflows of resources represent an acquisition of net position that applies to a future period which will not be recognized as an inflow of resources until that time.

**NEW JERSEY WATER SUPPLY AUTHORITY  
(A COMPONENT UNIT OF THE STATE OF NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS

**B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Deferred Inflows and Outflows of Resources (Continued)**

*Deferred Inflows of Resources - Cost Recovery*

The Authority's cost recovery rate model used to establish rates, fees and charges, includes an amount for debt principal repayment (but not for depreciation on the related debt financed assets) and also includes vacation amounts paid. In accordance with GASB Statement No. 62, the Authority has deferred the excess of current depreciation on assets financed with debt proceeds over the costs for debt principal repayment and the excess of vacation expense over vacation paid, and accrued sick pay, which are being classified as deferred inflows of resources. The deferred inflows will be recovered through future revenue in accordance with the rate model. The deferred amounts for the nine months ended March 31, 2022 and the year ended June 30, 2021, were determined as follows:

	March 31, 2022	June 30, 2021
<b>Raritan Basin System</b>		
Cost excluded from rate model:		
Depreciation of debt-financed capital assets recoverable from rate payers	\$ (626,407)	\$ (835,209)
Excess vacation expense over vacation paid	23,203	(28,761)
Accrued sick pay	-	3,591
	<u>(603,204)</u>	<u>(860,379)</u>
Cost included in rate model:		
Debt principal repayment	-	-
<b>Subtotal Raritan Basin System</b>	<u>(603,204)</u>	<u>(860,379)</u>
<b>Manasquan System</b>		
Cost excluded from rate model:		
Depreciation of debt-financed capital assets recoverable from rate payers	(1,155,640)	(1,540,854)
Excess vacation expense over vacation paid	12,780	4,451
Accrued sick pay	-	5,223
	<u>(1,142,860)</u>	<u>(1,531,180)</u>
Cost included in rate model:		
Debt principal repayment	296,250	3,170,000
<b>Subtotal Manasquan System</b>	<u>(846,610)</u>	<u>1,638,820</u>
<b>Total Raritan Basin and Manasquan</b>	(1,449,814)	778,441
Balance, beginning of year	1,210,498	432,057
Balance, end of year	<u>\$ (239,316)</u>	<u>\$ 1,210,498</u>

As shown in the statements of revenue, expenses and changes in net position for the nine months ended March 31, 2022, deferred inflow of resources credit of \$1,452,235 includes a debit balance of \$33,562 of Manasquan Water Treatment Plant unearned revenue, which is not part of the rate model, and does not include a debit balance of \$35,983 of accrued vacation and sick pay. The June 30, 2021, deferred inflows of resources debit balance of \$1,635,336 includes a debit balance of \$841,399 of Manasquan Water Treatment Plant unearned revenue and does not include a credit balance of \$15,496 of accrued vacation and sick pay.

*Deferred Inflows/Outflows of Resources - Debt Refunding*

Deferred charges for debt refunding result from the difference between the net carrying amount of refunded bonds and the amount deposited to escrow to defease the bonds. In accordance with GASB 23, the Authority has deferred the difference between the reacquisition price and the net carrying amount of the Manasquan Reservoir Water Supply System Revenue Bonds, Series 2005. The deferred amount is reported as a deferred inflow of resources and amortized as a component of interest expense over the remaining life of the Manasquan Reservoir Water Supply System Revenue Bonds, Series 2016.

**NEW JERSEY WATER SUPPLY AUTHORITY  
(A COMPONENT UNIT OF THE STATE OF NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS

**B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Deferred Inflows and Outflows of Resources (Continued)**

*Deferred Inflows/Outflows of Resources - Pensions & Other Postretirement Benefits (OPEB)*

Deferred charges for the defined benefit plans result from the difference between expected (actuarial) and actual experience, changes in actuarial assumptions, net difference between projected (actuarial) and actual earnings on plan investments, changes in the State's proportion of expenses and liabilities to the plans as a whole, differences between the Authority's plan contributions and its proportionate share of contributions, and the Authority's pension contributions subsequent to the pension valuation measurement date.

**Accounting for Southeast Monmouth Municipal Utilities Authority Agreement**

The Authority operates and maintains a Water Treatment Plant/Transmission System for the Southeast Monmouth Municipal Utilities Authority ("SMMUA"). The SMMUA is charged for budgeted operating expenses expected to be incurred by the Authority during the SMMUA's fiscal year (January 1 through December 31).

Because of the difference resulting from billing the SMMUA for budgeted expenses versus actual expenses appearing in the financial statements, the Authority includes unearned costs (actual costs exceeding SMMUA billings) or unearned revenue (SMMUA billings exceeding actual costs) in its statements of net position. These excess costs or billings will be recovered or recognized in future periods. As of March 31, 2022 and 2021, unearned revenue amounting to \$3,959,992 and \$3,391,178 respectively, was determined as follows:

	<u>2022</u>	<u>2021</u>
Reimbursement of operating expenses	\$ 1,937,503	\$ 1,968,507
Operating expenses	<u>1,903,941</u>	<u>1,662,360</u>
Unearned revenue	33,562	306,147
Balance, beginning of year	<u>3,926,430</u>	<u>3,085,031</u>
Balance, end of year	<u>\$ 3,959,992</u>	<u>\$ 3,391,178</u>

In previous years, the Authority received additional funds that are restricted for use by the SMMUA for costs associated in operating the Water Treatment Plant. As of March 31, 2022 and 2021, the amount included in unearned revenue was \$293,549 and \$323,537, respectively.

**Accounting for Watershed Protection Program**

For the nine months ended March 31, 2022 and 2021, the Authority received \$97,872 and \$553,786 respectively, from federal and/or state environmental agencies for the costs associated with various watershed protection studies of the Raritan Basin System. These funds are restricted to uses specifically identified in grant agreements between the Authority and these agencies and will be recognized as revenue as the related costs are incurred. Eligible project expenses include, but are not limited to, the cost of mapping out streams and other water sources and studying and implementing best land use practices to improve water quality. As of March 31, 2022, all the funds received had been recognized as revenue.

**NEW JERSEY WATER SUPPLY AUTHORITY  
(A COMPONENT UNIT OF THE STATE OF NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS

**C. CAPITAL ASSETS**

Capital assets activity for the nine months ended March 31, 2022 and the year ended June 30, 2021, was as follows:

	<b>2022 Beginning Balance</b>	<b>Additions</b>	<b>Retirements</b>	<b>2022 Ending Balance</b>
Capital assets not being depreciated:				
Land	\$ 26,444,952	\$ -	\$ -	\$ 26,444,952
Construction work in progress	89,541,411	14,109,370	(4,352,691)	99,298,090

**NEW JERSEY WATER SUPPLY AUTHORITY  
(A COMPONENT UNIT OF THE STATE OF NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS

**D. CASH, CASH EQUIVALENTS AND INVESTMENTS**

New Jersey statutes permit the deposit of public funds in the State of New Jersey Cash Management Fund ("NJCMF") or in institutions located in New Jersey that are insured by the Federal Deposit Insurance Corporation (the "FDIC") or by any other agencies of the United States that insure deposits. All funds of the Authority may be invested in, obligations of, or guaranteed by, the U.S. government.

The Authority's bond resolutions limit the investment of restricted assets to obligations of the U.S. government or its agencies, investments in certain certificates of deposit of commercial banks that are members of the Federal Reserve System, investments in the NJCMF and direct and general obligations of any state that meets the minimum requirements of the resolution.

1. Cash

As of March 31, 2022 and June 30, 2021, the Authority's bank balance was \$96,016,677 and \$98,082,732, respectively, of which \$250,000 was covered through the FDIC. The remaining balance of \$95,766,677 and \$97,832,732 as of March 31, 2022 and June 30, 2021, respectively, was collateralized through a stand-by letter of credit issued by the Federal Home Loan Bank of Pittsburgh through TD Bank. The letter of credit covers up to a maximum of \$100,000,000 of Authority deposits and expires on May 23, 2022. The cash balance per the statement of net position is shown exclusive of outstanding checks totaling \$17,485 and \$160,114, respectively. The statement of net position amount includes petty cash totaling \$300 as of March 31, 2022 and June 30, 2021, respectively.

2. Custodial Credit Risk - Deposits

Custodial credit risk is the risk that, in the event of a bank failure, the Authority's deposits may not be returned. The Authority does not have a deposit policy for custodial credit risk. The Authority's bank balance of \$96,016,677 and \$98,082,732 as of March 31, 2022 and June 30, 2021, respectively, was exposed to custodial credit risk as follows:

	March 31, 2022	June 30, 2021
Uninsured and uncollateralized	\$ -	\$ -

3. Investments and Cash Equivalents

The Authority does not have a policy to limit interest rate risk; however, its practice is to hold investments to maturity.

The Authority categorizes its fair value measurements within fair value hierarchy established by generally accepted accounting principals. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The Authority has no level 1 or level 3 investments.

As of March 31, 2022, the Authority had the following recurring fair value measurements using current sale prices or sale prices of comparable securities for New Jersey General Obligation Bonds (Level 2 inputs) for investments and cash equivalents, and maturities:

Investment and Cash Equivalent Type	Valuation Inputs Level	Fair Value	Investment Maturities (In Years)	
			Less than 1	1-5
NJ G/O Bonds and CDs	Level 2	\$ -	\$ -	\$ -
Total		\$ -	\$ -	\$ -

As of June 30, 2021, the Authority had the following recurring fair value measurements using current sale prices or sale prices of comparable securities for New Jersey General Obligation Bonds (Level 2 inputs) for investments and cash equivalents, and maturities:

**NEW JERSEY WATER SUPPLY AUTHORITY  
(A COMPONENT UNIT OF THE STATE OF NEW JERSEY)**

NOTES TO FINANCIAL STATEMENTS

**D. CASH, CASH EQUIVALENTS AND INVESTMENTS (CONTINUED)**

3. Investments and Cash Equivalents (continued)

Investment and Cash Equivalent Type	Valuation Inputs Level	Fair Value	Investment Maturities (In Years)	
			Less than 1	1-5
NJ G/O Bonds and CDs	Level 2	\$ 250,264	\$ 250,264	\$ -
<b>Total</b>		<b>\$ 250,264</b>	<b>\$ 250,264</b>	<b>\$ -</b>

4. Credit and Custodial Credit Risk

In order to limit exposure to credit risk, the Authority follows the investment policies set forth by the NJCMF. These policies allow investment in securities that achieve a certain rating from the three major ratings organizations as determined annually by the governing board of the NJCMF, as well as limiting investments to certain types of marketable securities.

U.S. Treasury notes are explicitly guaranteed by the U.S. government and are not subject to credit risk or custodial credit risk.

The Authority entered into an agreement with TD Bank to collateralize all deposits held at market rate equal to 102% of the daily combined total of all deposits. As of March 31, 2022, all deposits were collateralized.

5. Investment Income

The following comprises investment income for the nine months ended March 31, 2022 and 2021, respectively:

	2022	2021
Interest earned on bank accounts and certificates of deposit	\$ 72,399	\$ 118,207
Interest earned on securities	281	7,845
Increase in fair value of securities	2,011	12,048
	<u>\$ 74,691</u>	<u>\$ 138,100</u>

**E. MAJOR WATER CUSTOMERS**

During fiscal years 2021 and 2020, the Authority supplied water to approximately 30 customers of the Raritan Basin System and 13 customers of the Manasquan System.

During fiscal years 2021 and 2020, two customers accounted for approximately 84% of total Raritan Basin System operating revenue. During fiscal years 2021 and 2020, three customers accounted for approximately 85% of the total Manasquan System operating revenue.

**F. RISK MANAGEMENT**

The Authority carries insurance for all of its facilities, covering direct physical loss or damage and loss of revenue resulting therefrom, with such deductibles as it deems appropriate. The Authority also carries General and Umbrella Public Liability Insurance with self-insured retainers as it deems appropriate. Automotive and Public Officials Liability coverage is also maintained with deductibles. Workers' Compensation coverage is also maintained, as required by State law. Settled claims resulting from the aforementioned risks have not exceeded insurance coverage in any of the past three fiscal years.
