Construction of upgrades and improvements to Spruce Run Reservoir as part of the Spruce Run Reservoir Structures Refurbishment and Resource Preservation Project, located in Clinton Township, the Town of Clinton and Union Township, Hunterdon County, New Jersey for the total project cost of $42,044,074.34 was financed by the New Jersey Water Bank (NJWB). The NJWB is a State Revolving Fund program jointly administered by the New Jersey Department of Environmental Protection (DEP) and the New Jersey Infrastructure Bank (Infrastructure Bank) and uses a combination of funds provided by the United States Environmental Protection Agency, the DEP, and the Infrastructure Bank to provide very low interest loans to borrowers for environmental infrastructure projects.

This project will provide water quality benefits in the form of consistent passing flows in the Raritan River to maintain the ecological health of the river for recreational users and will provide reliable drinking water supply for businesses and residents totaling more than 1.5 million people in central New Jersey.

State Revolving Fund programs around the nation provide states and communities the resources necessary to maintain and improve the infrastructure protecting our valuable water resources nationwide.
